### CUSTOMER REVIEWS

"I felt Carol took my creative mind to a next level, especially with the teddy bear picnic: if I knew that I had to sculpture a teddy bear and tea set before enrolling, I might have had second thoughts. I don't think the level was too advanced; it would have been my perception beforehand. I definitely learned a lot more than I ever read on the internet or books that I bought.

The small handy tips are so useful, and since I have much more confidence in my creating that before. Carol is so natural in the way she is doing everything.

Thanks for a wonderful experience, and I will be in contact with you again. Please keep me updated if there are more courses to come, I will always be willing to extend my skills."

"I enjoyed the workshop immensely yesterday and would love doing another one. When I got home with the cakes my boys asked if it was their birthday and if they can stick candles in the cake and blow them out. Dad could not believe his eyes either. He could not believe that I actually decorated the cakes myself, but thanks to the certificate I can prove to him that I actually did attend a workshop and that I did make the cakes myself. It was a brilliant experience and would not have traded the day for anything else! WOW I can be creative as well!??

Great and again THANK YOU VERY MUCH FOR YOUR EFFORTS CAROL"
